

Rectification

Birth time and horoscope time are two different things. These two can differ by 30 minutes and even more. The horoscope time or chart time determines our birth and also death.

The key or code for the horoscope time is

$$AR+SU-MC = AS/X$$

There are four different possibilities referring to the various zodiac signs :

AS/NO, AR/AS, AS/SU and AS/MO

1) For the Aries-Houses or earth houses 1, 12, 6 and 7, i.e. the signs Libra, Virgo, Pisces and Aries it is AS/NO.

The chart time must be interpolated so as to come up with the equation of

$$AR+SU-MC = AS/NO$$

in these cases.

2) For the Aries-Houses 3, 4, 9 and 10 or zodiac signs Sagittarius, Capricorn, Gemini and Cancer the formula is

$$AR+SU-MC = AR/AS$$

3) For the Aries-Houses 2 and 8, i.e. Scorpio and Taurus, it is

$$AR+SU-MC = AS/SU$$

4) This is about the chart time of Barack Obama. His zodiac sign is Leo which is Aries-House 11 and for this the formula is

$$AR+SU-MC = AS/MO$$

It also applies to Aries/Earth-House 5, Aquarius.

The birth time according to birth certificate is 7h24m pm. = 19h24m, which is 05:24 GMT on 5.8.1961

Barack Obama
 Kapiolani M.C.Honolulu
 04.08.1961 19h24m00s
 + 10:00:00
 + 157°50'01
 + 21°17'56 MC 28°55'11 Sc AS 18°05'06 Aq

05.08.1961
 05:24:00 GMT / + 157°50'01 / + 21°17'56 / MC 28°55'11 Sc / AS 18°05'06 Aq
 Interpolating the time to 05:12:16 GMT / local 04.08.1961 / ends up at

modus	360°	90°	45°	22°30
AR+SU-MC = 16°28 Sg	256°27'58"	76°27'53"	31°27'53"	8°57'58"
= AS/MO = 8°58 Ar	8°57'58"	8°57'58"	8°57'58"	8°57'58"

04.08.1961
 7m12m16s pm. / + 157°50'01 / + 21°17'56 / MC 26°04'29 Sc / AS 14°41'06 Aq

Now the time found must be verified and confirmed by the conception day and other criteria.

On the Day of Conception the transiting Moon either crosses over the Ascendent or Descendent. In order to roughly focus this day, it is best to put the pointer on the Sun.

In normal case a pregnancy takes 270 days = 270° This means the beginning must be in Libra or Scorpio or even November 1960.

Easiest and quickest way is to cast a chart back 1 year so as to see how near SUt comes to the 270°axis.

Or even nearer to the point, cast a chart back 9 months, which would be 05.11.1960, November 5th, 1960.

In this case the transiting Moon crosses over the Ascendent on 27.10.1960.
 On 28.10. MOt (outer circle) already is on 16°33 Aq while ASr is on 14°41 Aq, and thus has passed the Radix Ascendent already.

Back to the main axis AS^MO Radix.
 Now it is essential that either MCt or ASt turns up on this axis.
 In this case it is ASt

$$ASr^MOr = ASt/ASt$$

However, also the content must match.
 SU/NO in this axis, (outer circle), is a 'Personal Halfsum' which belongs to the so called 'masculine group' with the fire planets dominating and the houses 2 and 8.

Releasing factor for this is AS and NO.
 SU/NO - masc. group - MA - UR - ZE - VU - Hs 2:8 # 8:2
 releasing factor **AS** and **NO**

SUt/NOt is in 8 and ASr^MOr 180° in opposition thereto, in 2. Ascendent House.
 Thus the formula SU/NO=AS is being released.
 SU/NO=**AS** (MA - UR - ZE - VU - Hs 2:8 # 8:2)
 personal (physical) connection with others;

Furthermore, there is the equation SUr/MOr = SUt/MOt
 SU/MO - space/finality - ME - SA - PL - AD - Hs 1:12#12:1 6:7#7:6
 releasing factor **MC** and **MO**
 parents;

And also there is MO/NO. This 'Personal Halfsum' belongs to the 'feminine group' of 'Personal Halfsums'.
 MO/NO - fem. group - VE - JU - CU - AP - Hs 11:11 # 5:5
 releasing factor **AR**
 relationships of/to women;

The releasing factor AR connects to ZE and shows the picture :

$$ASr^MOr = ARr/MOr = ARt/ZEt = SUr/ZEr = JUt/ZEt = MAt/JUt$$

SO/ZE=JU - intercourse with consequences; ability to procreate;
 JU/ZE=MA - happy procreation;

parents' data

It is ideal to have the parents' data available, Obama's parents :

mother: Ann Dunham 29. November 1942
 SU 246°38 = 6°38 Sg (1)

father: Barack Hussein Obama Sr. 18. Juni 1936
 SO 87°03 = 27°03 Zw (2)

Both the parents' Suns connect in the main axis, ASr^MOr =

$$SUr/MOr = SU1/SUr = SU2/MOr = SU1/SU2$$

Nidation

Nidation normally occurs 3 - 5 days after conception, sometimes it takes even longer. This is indicated by the connection of the 2 Moons radix and transit. The planetary structure then shows

$$ASr^MOr = MOr/MOt$$

In this case it already happened on 28.10.1960, 28th Oct., 1960.

$$ASr^MOr =$$

$$MOt/ZEt = JUt/ZEt = MAt/JUt = MOt/MAt = MOr/MOt = MEr/MEr = MEt/MEt$$

- JU/ZE=MA - intercourse with consequences;
- MA/JU - procreation; birth; child;
- MO/MA=ZE - ability to procreate;
- MO/MA=ME - the active brain;
- MO/ME - brain; thinking capacity;
- AS/MO=MA - the mother;
