#### MC/AS 1/12

The 1st MC-House shows the hereditary psychic disposition as accumulated personal development grown during all previous incarnations.

The Ascendent in the 1st MC-House, reflection 12th, (1/12), says that one feels very close to those within the immediate social environment, because one believes and fears not to be able to live alone. This results in a mutual dependency in respect to both the happy and the unpleasant aspects of living together.

Adversity and difficulties in conflict resolution lead to strong psychological strains, which one tries to escape by trying to join another new community.
