

Although the parental data are not available, I rectified to a chart time of 19:33:08 GMT.  
It is the only time possible.

birth time  
1h34m pm. + 6 hours  
= 7h34m pm.  
or 19h34m GMT

1h34m pm.  
= 13h34 pm. + 6  
= 19h:34m GMT

The Sun in Cancer leads to the rectification code

$$AR+SU-MC = AS/AR$$

which applies to the Sun Signs Ge, Cc, Sg and Cp.

Interpolation of the time to 19:33:08 GMT

shows  $AR+SU-MC = 6^{\circ}12'$  Pisces =  $336^{\circ}12$  in  $360^{\circ}$  =  $21^{\circ}11'49''$  in  $22^{\circ}30$  modus  
 $AR/AS = 21^{\circ}11'49'$  Capricorn =  $291^{\circ}12$  in  $260^{\circ}$  =  $21^{\circ}11'49''$  in  $22^{\circ}30$  modus

This main axis of the chart indicates the planetary structure for suicide :

$$AR^{\wedge}AS = SU/MA = SU/UR = MA/UR = MA/HA = SA/SA = AD/AD = AR/SA = AS/SA = AS/AS$$

MA/HA=SA - suicide;

AR/SA=UR - sudden death;

On August 11, 2014  
 the Solar Arc directed SU is on this  
 main axis and also is the Node.

However, we must remember that these  
 two factors were on this axis also 22,5  
 years ago, namely on the 22°30 axis  
 before.

The Node even was conjunct Admetos.  
 AD is on a 90° angle to the axis AR^AS

The directed factor from one 22°30 axis  
 to the next always leaves open a specu-  
 lative option.

Therefore, I rely on the conjunction of a  
 directed factor to a radix factor, which  
 in this case is ADd = VUr. A conjunc-  
 tion like this occurs only once in life.  
 Prior to AD, also KR and HA were  
 going conjunct VU. Hence the VU-axis  
 was activated before, and two times.  
 The clue is the axis which is formed by  
 the two factors involved which are  
 ADmedos and VUulkanus.

Therefore, the AD^VU axis is the  
 relevant axis at this time. And this axis  
 contains another formula for suicide,  
 with the decisive factor MC/MC on it,  
 in 90°, or D4, (division 4).

$$\begin{aligned} AD^VU &= MA/PL = SA/NE = AS/NE \\ &= AS/AD = SA/AD \\ &= MC/MC = ME/ME \end{aligned}$$

MA/PL=SA - suicide;  
 MA/PL=ME - think of suicide;  
 AS/NE = AS/AD  
 NE/AD - change from one aggregate to  
 another; (poison; drugs; alcohol;)
